

Production features and key information:

- Entirely handmade produced in Italy with yarns of Italian 'MAGLIERIA' (High Knitwear) North of Piedmont Italy.
- We can use: Cashmere of the finest, extra fine Merinos wools, Mohair, Yak, Alpaca, Silk, Silk/Cashmere, ad hoc compound yarns and Mélange yarns, Etc. etc.
- All 'Noble' yarns and every raw material that makes up our productions is natural (without any use of plastics) with special attention and dedication to the environment.
- Very fast production, yarns received in about two weeks (from stock service catalogue) and the carpet (e.g. 3mX2m=6sq.m.) produced in 5 working days (for complex designs 7/10 days). For custom-dyed colors it takes one week for sample testing and 4 weeks for final dyeing, followed by our production.
- Production from drawing or plan without minimum quantity or waste at extra cost.
- All natural materials with customized finishes on the back strictly hand-stitched. E.g. customer name or brand logo etc. etc.
- All products are certified with flame retardant tests so as to meet the design requirements for use on Airplanes, Helicopters, Cars, Yachts or Hotels.
- Variable pile heights from a minimum of 10mm to a maximum of 70/80mm (recommended height, beyond that size the costs are excessive).
- Infinite colors from the color chart (approx. 120) or from the Pantone color palette.
- Any damage to the carpet can be repaired at any time. Easy to clean. Professional dry cleaners or dry cleaning. We provide kits and instructions for first cleaning.
- We can lay the carpet/rugs directly on site, hand-bead and hand-sew any repairs.
- All carpets and rugs for commercial contract use are selected and customized, after prior viewing of the project we can follow up with specific laying and cutting techniques without waste of material.
- With the same yarn used for the production of the carpets, we also produce Blankets, Plaids, Stoles, Scarves, Shawls and fully customizable knitwear with Jacquard patterns and prestigious finishes.

Product specifications:

Any marks, irregularities in color, creases or variations to the products are naturally occurring features and should not be thought of as imperfections but as a value of handcrafted items. Such as the peeling, in the initial stage, which is a characteristic of the extra fine quality of the knitting yarns used for tufting.
